The Story of Parasol Stars

Once, long ago, there was a courageous warrior that entered a cave of monsters with the intent of sealing it forever. He accomplished this task, however, unknown to him, one monster escaped before the cave was sealed. Years passed, and that one monster eventually grew strong enough to break the power of the warrior's magic seal. That monster, who became known as Chaostikahn, unleashed the monsters within the cave on the world once again.

During this same period of time, Bubby and Bobby, our heroes, had won the admiration of the villagers of Rainbow Island by defeating the enemies terrorizing their

planet, allowing peace to settle in. To show their appreciation, the inhabitants of the Island entrusted one Magic Parasol each to Bubby and Bobby. In the months that followed, Bub and Bob were so intent on learning to harness the power of the Magic Parasols that they did not notice the menacing presence that was overtaking the neighboring planets. One day, they received an emergency distress signal from one of those nearby planets. Though they had not quite mastered the techniques for using the Magic Parasols, they courageously raised their parasols toward the planet in distress and disappeared into the skies above Rainbow Island, unaware of the danger and size of their new quest.

The Stars are Calling

Each world is divided into 7 rounds. The last round of each planet pits you against (you guessed it!) a boss character. Defeating the boss returns peace to the planet and allows you to continue to the next planetary challenge.

Using your TurboPad

Direction Key

Press to move Bubby left or right. Pressing up and Button II raises Bubby's parasol.

RUN Button

Press to start, pause, and 'unpause' the game. Press and hold RUN and then press SELECT to reset the game.

SELECT

Not used in *Parasol Stars*.

Button II

Opens Bubby's parasol.

Button I

Makes Bubby jump.

Continue Mode

Players can continue playing as long as the Credit counter is not zero. Additional credits can be earned by finding and snagging "100 Dollar" powerups during the game.

Joining a Game in Progress

As long as credits remain on the counter, players can join or re-join a game in progress by simply pressing the RUN button.

Erasing High Scores

This game is equipped to use the Backup RAM in the TurboCD or TurboBooster-plus. If you wish to clear (reset) the *Parasol Stars* high score table, press and hold RUN, SELECT, Button I, and Button II while turning on your TurboGrafx!

Special Note: *Parasol Stars* cannot be started while in the demonstration mode. If the demo is running, the game may be reset by pressing and holding RUN, then SELECT at the same time. The title screen will then appear and the game may be started in the normal manner.

Understanding the Display

Before you start playing *Parasol Stars*

This game allows two players to play simultaneously. In order to use this feature, a TurboTap and two TurboPads are required. TurboTap and pads must be connected prior to turning on your TurboGrafx.

Starting the game

At the title screen, pressing RUN on Pad #1 results in a one player game, pressing RUN on Pad #2 results in a two player simultaneous game.

Note: In one player mode, the number of credits remaining is displayed instead of the player 2 score.

Using the Magic Parasol

Stop Movement with the Parasol!

When you hit an enemy with the Parasol, changing it's color, the enemy is stunned and stops moving. Stunned enemies can be touched with no ill effects.

Remove by throwing!

A stunned enemy will soon revive with a vengeance if left alone. It is therefore wise to dispose of enemies soon after they are stunned. Pick them up by pressing Button II and touching them with the open Parasol. Throw them by releasing Button II.

Line up enemies for big scores!

Line up stunned enemies, then throw a Drop or another stunned enemy at the lineup. Each stunned enemy in the line will yield twice as many points as the previous one.

Technique Examples

Stun active enemies by throwing Drops or stunned enemies at them!

Larger enemies take multiple hits to stun!

You can move drops or stunned enemies by rolling them - or ride them by jumping on them!

If small enemies touch a large stunned enemy, the small enemy will become stunned!

Technique Examples

Use the Parasol to protect yourself from missiles and laser beams!

The 4 drop types are: Water, Lightning, Fire, and Star. If you retrieve the potion on the boss round, you can create and collect drops by simply holding your Parasol up!

Store drops by opening the Parasol. If you gather 5 drops at the same time, they transform into a large drop with awesome power!

Press and hold Button II (turbo switches off!) to keep the Parasol open!

Technique Examples

You can climb by jumping up a stream of falling drops!

Hit Button II twice rapidly! The enemy will be stunned and disposed of quickly!

A large drop can be created 'on the fly' by throwing four drops at a cornered drop!

Jump on stunned enemies and raise the Parasol! The enemy below will be picked up, and you will shoot up!

Bonus Items

When you throw an enemy or Drop, hidden food or valuable items will appear! Throw things repeatedly for mega-scores! If you are very lucky a 100 Dollar Coin will appear. Retrieve it and you will receive one extra credit!

Pay attention to Death!

Don't spend *100* much time searching for hidden bonus items without clearing a round. If you do, HURRY!! will appear on the screen and the enemies will move faster. After this, you will get only one more warning before Death arrives to try to take a life. Since Death cannot be defeated, the only way to escape is to finish the round. If Death successfully takes a life, he disappears for a while.

Special Power-ups

Certain player actions will cause different power-ups to appear. The exact moves are a secret. Can you figure them out? Once they appear, power-ups can be retrieved by throwing enemies or drops at them.

Items whose effect changes by color

Heart

Changes the bonus at the end of a round!

Rod

Transforms food!

Ring

Raises scores!

Marble

Use this to blow away enemies!

Other Items

Boot

Speeds up player actions!

Dynamite

Creates a tremendous explosion!

Potions

Potions only appear on the boss screens, and they are very powerful! After retrieving one of the four potion bottles (Water, Lightning, Fire, or Star), you are able to magically attract and collect drops of the same type simply by raising your umbrella!

Secrets of Bubble Bobble III

Parasol Stars is filled with secrets. Here are just some of the puzzles to solve, and a few clues to help you along...

Mystery Crests

During the game, 4 different kinds of crests can appear - seemingly at random. These crests represent the power of Water, Fire, Lightning, and Stars. When three crests are collected, their power is unleashed in the form of a miracle!

Tip: When you create a large drop twice in the same round, the same kind of crest will appear on the next round!

Secret Door

Each planet contains a secret door. Where is it? What causes it to appear? What treasure does it protect?

Miracle Rainbow

A shimmering rainbow comet protects you, and a sparkling rainbow-colored necklace brings a true miracle beyond words!
